Divine

Software and Blockchain developer 🚀🖤

📍 Enugu, Nigeria. ⌨ Almost 4 Years Experience 💼 Senior Software Engineer @ Mend
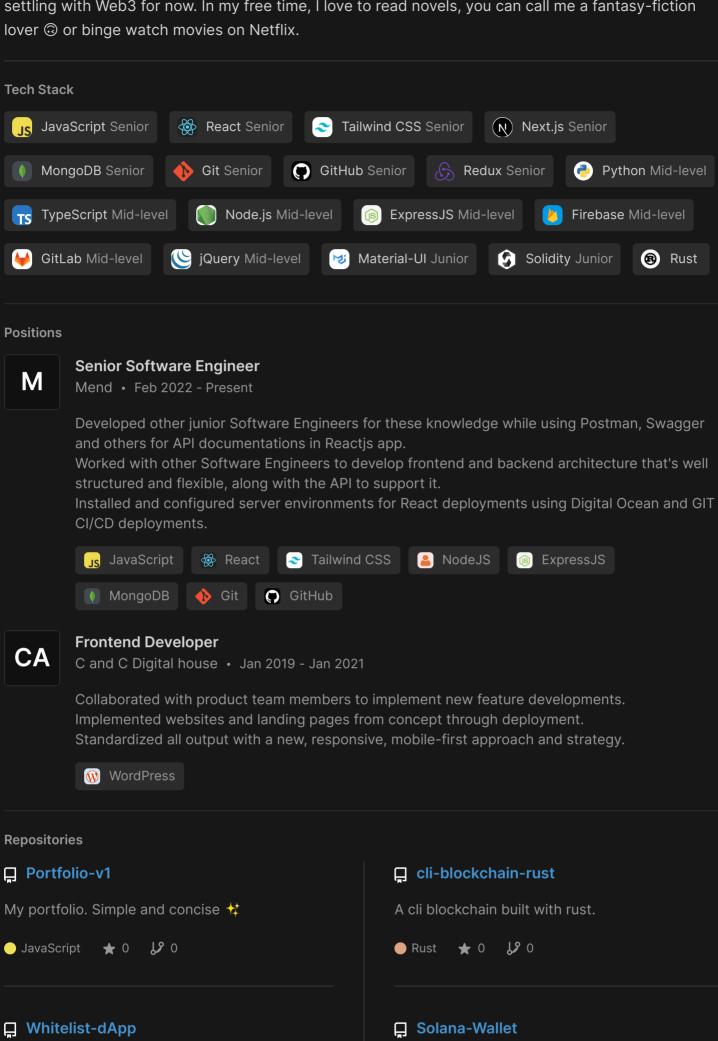

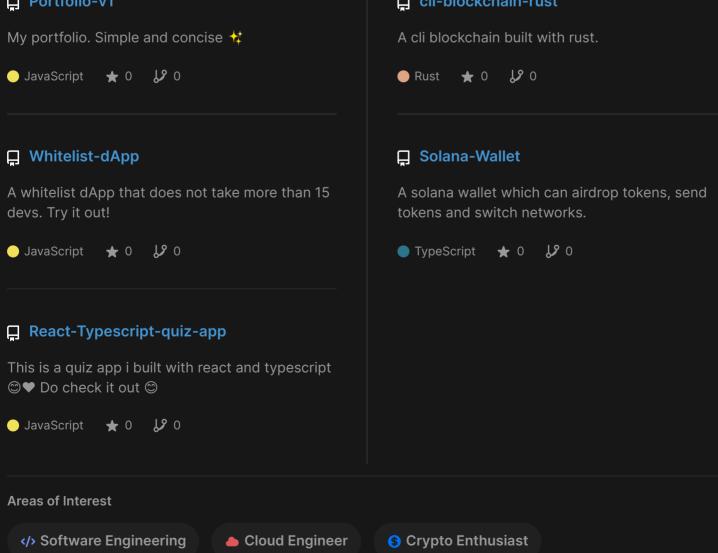

About

I am currently a dedicated and efficient full stack developer with over three years experience in both Frontend and Backend Web technologies. My interest in Web3 has led me to learn blockchain development in both Ethereum and Solana. Of course my interests can change with time, but I am settling with Web3 for now. In my free time, I love to read novels, you can call me a fantasy-fiction lover 😌 or binge watch movies on Netflix.
